

Introducing Our New! "Classic-Series" Homes!

The Most Economical, Energy-Efficient & Best-Built Home Available!

Our all new "Classic-Series" homes bring back "the good 'ol days" when quality-built homes were within everyone's budget. They are built to state codes and are designed for traditional basements or crawlspaces and are ideal for narrow lots, limited budgets or retirement homes...and include our extreme insulation package (R-50 ceilings, 2x6 walls). They can often be set up and ready for "hookups" in one day! We believe you will not find a home that is built better, includes more, or is a better value.
